

Revo[®]

Planetary Gearhead

Company Profile

With more than 30 years of industry experience, Revo Gears is specialized in the production of high precision planetary gearheads that features helical planetary gear design. Its gear product features high torque capacity, low backlash, outstanding power transmission efficiency, quieter operation and remarkable gear reduction ratio. Planetary gearboxes are ideal drive components for dynamic Servo Motor and Step Motor applications. Now the product is widely recognized for its reliable & stable performance. Our company is committed to deliver the best-in-class product and solution to its customers through continuous improvement, innovation and trust.

PE/PN HELICAL GEAR PLANETARY REDUCERS

Product Features

- The Best combination for precise motion control products like Step Motor, Servo Motor, due to unique multi-stage gear-reduction, high-efficiency output torque precision planetary gearbox.
- Patented Inner-Gear design, prolonged life and low noise level; fully enclosure design ensure no lubricant leakage.
- High drive efficiency up to 95%, due to low wear and helical planetary gear design.
- Compatible with all NEMA Motors mounting standard, easy installation.
- Smallest dimension among products of same level; Most suitable for limited mounting space.
- Precision grade with backlash 5 arcmin; Standard grade 10 arcmin.
- All internal components are made from high-Duty alloy metal, suits for tough operating environment.
- Suitable for various applications with Precision and Standard grade Backlash.

RA RIGHT – ANGLE REDUCERS

Product characteristics

Easy mount to any motor & gear head.

- Designed for mounting in any orientation
- Adjustable backlash. Minimum 3 arc-minutes
- 6 Frame Sizes With multiple exact ratios
- Available for NEMA and servo Mounting
- High Quality Spun Gear Head
- Gear Ratio Available for 1:2 1:5
